

ECO-FRIENDLY RAKHI MAKING ACTIVITY

The 'Rakshabandhan' or 'Rakhi' festival is a special and unique occasion to celebrate the bond of love between brothers and sisters. To commemorate this festival, a Virtual Rakhi Making Activity was organised for the Pre - Primary wing students on 18 August 21. Students displayed their talents by making colourful, eco-friendly Rakhis using ribbons, laces, rice, chana dal etc. The children thoroughly enjoyed this activity. This activity helped the children learn about the festival's significance and helped them relate to their own culture and tradition.
