

My Family Tree

My Family Tree Activity

The Pre- Primary wing of Sahoday School conducted – “ MY FAMILY TREE ACTIVITY” for the tiny tots of Nursery on 23 June 21 over the virtual medium. This activity introduces the study of the personal family history in a way that a child can personally connect with. Children were filled with excitement as they drew a tree and enjoyed Cotton Dabbing and Hand Printing on the tree. Then, they pasted pictures of their family members, which involved them in asking questions. The students were filled with excitement and interest in tracing their roots. The activity proved to be a challenging experience that filled them with pride and a fascination towards their family affiliations.
